WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

STATEMENT ESTABLISHING UNINTENTIONAL DELAY

The above-identified application apparently went abandoned on by failure to maintain pendency of the application.

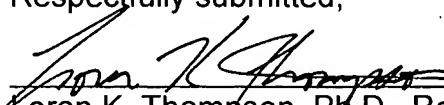

On October 18, 2005, the USPTO imposed a final office action upon the above application which had a 3 month shortened statutory period for reply which was also extendible for another 3 months to April 18, 2006.

The Applicant's prior Representative (Seyfarth Shaw LLP at 131 S. Dearborn St. , Suite 2400 Chicago IL 60603 Telephone 312-460-5000) claims never to have received the non-final Office Action from the USPTO. This prior Representative has speculated the reason for not receiving this non-final Office Action was that a formal Change of Address form previously filed had gone ignored by the USPTO.

The Applicant respectfully regrets not maintaining the application pendency during these extended time periods between responses.

Respectfully submitted,
